

Kids Clutter-Free Closet Checklist

From Ch 9: Ignite the Organizer in Your Child

Before you embark on this Organizing Mission, decide which sorting framework that your child wants to follow: *The Galactic Explosion Method* (G.E.M.) or *The Mathematical Magician Method* (M.M.M.). You can work together more efficiently when you **focus and finish** on each clothing theme marked in **blue** before moving onto the next theme. Start with the items you <u>most</u> prefer **On-the-Hanger**. As space permits, decide which items are best stored **On-the-Shelf** or **In-a-Drawer**. Mark the location and total number on the line beside it. Set a timer for 30 minutes and start sorting!

Hanger, Shelf or Drawer + Total
